Year 3 Parent Planner

Mathematics and Numeracy

Summer Term 2026

Science and Technology

Pentrepoeth Primary School

Our Parent Planner

Our bespoke 'Challenge' curriculum aims to ensure children have a wide range of teaching and learning experiences and activities to enable children to maximise their potential and to support the four purposes as the foundation of everything they learn. This parent planner aims to give you an overview of the main areas of learning and experiences children will focus on in this topic as well as develop and apply their literacy, numeracy and digital competence skills across the curriculum.

How you can help at home

Read with your child as much as possible; ask questions about the story. Reading boosts vocabulary, comprehension and imagination.

Talk about their learning. Conversation builds understanding and helps children makes connections.

Make maths part of daily life e.g. board games, cards, everyday tasks such as cooking, telling the time and change.

Home Learning

Your child's reading books will come home on a Friday with their reading record. Can these please be returned on a Monday.

Children will have logins for Mathletics, Bug Club and HWB – all are useful resources to improve reading and maths skills.
